

FELTON ROAD

2018 Felton Road Chardonnay *Block 6*

Tasting Note

Aromas of elderflower and stone fruit, an evocation of bright, reflective stones and cool air. The north facing slope, higher elevation and greater exposure of Block 6, lend an extra degree of ripeness and stature compared to the finer, more mineral Block 2. The palate leads with grapefruit pith and persimmon flavours becoming broad and powerful. Honest and expressive of its unique vineyard origin.

Introduction

Beginning with meticulous site selection and vineyard design started in 1991, Felton Road's story is one of refusal to compromise. A strict 100% estate policy with fully organic and biodynamic viticulture (Demeter certified) ensures that our fruit arrives at the winery as pure as it can be, while our entire estate comes as close to true sustainability as is possible. A commitment to hands off winemaking: gravity flow, wild yeasts, wild malo, an avoidance of fining and filtration all help preserve the wine's expression of its terroir. The result is Riesling, Chardonnay and Pinot Noir which accurately express the authenticity and complexity of our unique vineyards.

Vineyard & Viticulture

Felton Road farms four properties totaling 32 ha in the Bannockburn sub-region of Central Otago. Block 6 was planted in 1993 and is positioned on a north facing slope immediately south of Block 5 on The Elms vineyard. Its higher elevation (282-300m) and steeper slope favourably intercepts the sun but results in it being more wind exposed. Meticulous summer management of a single vertical shoot positioned (VSP) canopy ensures even and early fruit maturity. Shoot thinning, shoot positioning, leaf plucking, bunch thinning and harvest are all carried out by hand to ensure optimum quality fruit. Cover crops are planted between rows to assist in vine balance and to improve soil health and general biodiversity.

Vintage

A vintage characterised by exceptional heat, with warmer than normal overnight temperatures being of particular note from October through January. As has often been the case, this was a vintage of two halves. When our calendars moved from January to February, the turning of the page was both literal and figurative. Temperatures crashed back down to ordinary levels (in fact, the coolest in 14 years) and the drought was broken by the wettest February on record. This cool and wet month slowed the ripening considerably and fortunately allayed our concerns for the potential style and quality of the wines; due to the preceding warm months and advanced season. Harvesting began early on 28 February and proceeded in an orderly and measured pace over the next three weeks.

Vinification

Mendoza clone Chardonnay from Block 6 was whole bunch pressed, settled overnight and flowed to barrel by gravity in the underground cellar. Fermentation with indigenous yeasts in seasoned French oak (no new oak) was followed by a long and complete malolactic over the spring and summer. After 16 months in barrel the wine was racked to tank for bottling in late-August 2019. The wine was not fined or filtered.
